

Your Cancer Checklist

Consider the support you provide at every stage of the cancer continuum – from screening through to diagnosis and survivorship

Include cancer in your broader wellbeing strategy to raise awareness and educate employees

Carefully consider your PMI and GIP benefits; what is covered, and – more importantly – what isn't

Review your cancer policy

Provide manager training to help facilitate supportive conversations

Offer specialist support to remain in or return to work

Consider innovative, specialist partners who are able to bridge the gaps between NHS, charities and insurers

Provide support for carers and family members, too

Outline cancer as a focus area in your mental health strategy

About Perci Health

Perci is a world leading virtual cancer care clinic, providing multidisciplinary, coordinated expert care to manage the impacts of cancer. We offer 1-to-1 appointments with NHS-registered cancer specialists and expert-led content for every stage of the journey, as well as support and education to HR professionals and line managers.

By harnessing the power of human experts, data and technology, we can provide affordable, leadership level care to 100% of an employee cohort. We're dedicated to ensuring cancer never stands in the way of anyone living and working to their full potential. [Join us.](https://www.percihealth.com)
